

# Voyager 1202g-bf

### **Battery-Free Wireless Laser Scanner**

Honeywell's Voyager™ 1202g-bf single-line laser scanner incorporates breakthrough battery-free technology, offering the freedom of Bluetooth® wireless technology without the maintenance hassle or long recharge time associated with traditional batteries. Like all other Voyager scanners, the 1202g-bf delivers aggressive linear bar code scanning performance—even on poor quality or damaged bar codes.

An integrated Bluetooth Class 2 radio grants users complete freedom of movement up to 10 meters (33 feet) from the base in a typical work environment. With clear line-of-sight to the base, wireless range of up to 30 meters (100 feet) is achievable. For added convenience, a paging system on the base activates auditory signals that help to locate a misplaced scanner. By eliminating the trip-hazard of tethered cables, the 1202g-bf can make for a safer and more productive work environment.

Battery-free wireless technology completely eliminates the battery, replacing it with a super-capacitor capable of achieving full-charge in less than 35 seconds, and providing enough wireless power to last at least 100 scans. This makes the 1202g-bf ideal for applications where occasional wireless scanning is needed; for example, as a complement to bioptic (in-counter) scanners in retail environments where bulky items are sometimes left in shopping carts and must be scanned by hand. With no battery, a common maintenance hassle is removed and the scanner is lighter and more ecologically friendly.

Voyager is a plug-and-play scanner, and features a multi-interface design with automatic interface detection. By automatically configuring itself to the appropriate interface upon connection, the installation process is shortened, and the cumbersome task of scanning programming bar codes is eliminated.

Built on the proven Voyager platform, the 1202g-bf offers high performance linear bar code scanning and the convenience of wireless—all without the battery.

### **Features**

- Battery-Free Wireless Technology: Fully charges in less than 35 seconds with a wall power adapter, and provides short-term power for at least 100 wireless scans.<sup>1</sup> By eliminating the battery, a common maintenance headache is removed, and the scanner is lighter and more environmentally friendly.
- Bluetooth® Wireless Technology: Grants wireless freedom
  of movement up to 10 meters (33 feet) or more away from the
  base, depending on user environment.
- Reliable Bar Code Reading: Increase throughput and reduce the potential for hand-keyed errors by quickly scanning a variety of 1D bar codes, including those that are damaged or poor quality.
- Automatic Interface Configuration: Supports all popular interfaces in one device, replacing the time-consuming process of scanning programming bar codes with automatic interface detection and configuration.
- Paging Functionality: Simply press the button on the base to locate your lost scanner; Voyager responds with a series of beeps and blinking lights on its indicator panel.

<sup>1</sup> Honeywell's battery-free wireless technology powers the scanner for at least 100 scans, with one scan performed every second. For applications requiring more than 100 continuous wireless scans, a traditional battery-powered scanner such as the Voyager 1202g is recommended.

## **Voyager 1202g-bf Technical Specifications**

Wireless		
Radio/Range	2.4 to 2.5 GHz (ISM Band) Adaptive Frequency Hopping Bluetooth v2.1; Class 2: 10m (33') line of sight	
Data Rate (Transmission Rate)	Up to 3 Mbps	
Number of Scans	At least 100 scans, with one scan every second At least 35 scans, with one scan every 6 seconds	
Expected Full Charge Time	Less than 35 seconds via wall power adapter Less than 95 seconds via USB power	
Use Time per Charge	Greater than 4 minutes (low use) Approximately 2 minutes (high use)	
Mechanical/Electrical	Scanner (Voyager 1202g-bf)	Charge & Communication Base
Dimensions	180 mm x 66 mm x 92 mm (7.1" x 2.6" x 3.6")	200 mm x 67 mm x 97 mm (7.9" x 2.6" x 3.8")
Weight	160 g (5.6 oz)	220g (7.8 oz)
Operating Power	Scanning: 180mA @ 4.0V	Charging: 5W: (1A @ 5V peak) with AC wall supply 2.5W: (0.5A @ 5V peak) with USB
Non-Charging Power	Standby: 40mA at 4.0V	Typical: 0.5W (0.1A @ 5V) Suspend Mode: 0.0125W (0.0025A @ 5V)
Host System Interfaces	N/A	USB, RS232
Host System Interfaces Environmental	N/A Scanner (Voyager 1202g-bf)	USB, RS232  Charge/Communication Base (CCB00-010BT-01N-BF)
•		Charge/Communication Base
Environmental	Scanner (Voyager 1202g-bf)	Charge/Communication Base (CCB00-010BT-01N-BF)
Environmental  Operating Temperature	Scanner (Voyager 1202g-bf)  0°C to 50°C (32°F to 122°F)	Charge/Communication Base (CCB00-010BT-01N-BF) 0°C to 50°C (32°F to 122°F)
Environmental  Operating Temperature  Storage Temperature	Scanner (Voyager 1202g-bf)  0°C to 50°C (32°F to 122°F)  -20°C to 60°C (-4°F to 140°F)	Charge/Communication Base (CCB00-010BT-01N-BF) 0°C to 50°C (32°F to 122°F) -20°C to 60°C (-4°F to 140°F)
